Pitch-style hail protection over an orchard.

NetPro Pty Ltd is an Australian company, specialising in the design and construction of Protective Canopy Systems. The company has been established for well over a decade and has designed many specialized structures to suit customer requirements. These include hail protection, permanent pest protection, wind and sports barriers, water storage covers and various commercial shade structures.

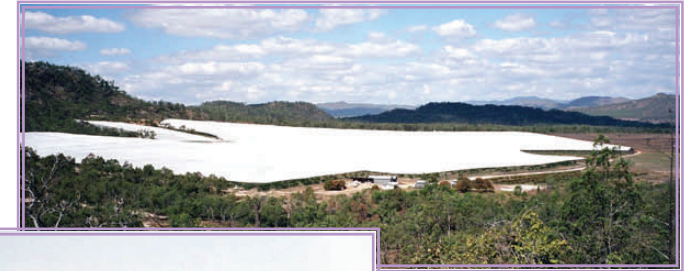

Vehicle protection at Port of Brisbane.

Net over Waste Transfer Station.

A number of attributes set NetPro apart:

- ✓ Extensive research and development at our headquarters in Stanthorpe, Qld;
- ✓ Our one-on-one engagement with the client to understand requirements and to create a user-friendly structure;
- ✓ Staff field expertise; and
- ✓ Pride in our workmanship (12-month warranty).

NetPro Headquarters and Research Facility in Stanthorpe, Australia.

Protective Structure over Livestock Feedlot.

While the core of the company's work developed from covering orchards against hail, horticulture is not the only industry to benefit from protective canopies – NetPro has been involved in the development of protective technology for aquaculture, livestock feedlots, worm farms, plant nurseries, vehicle yards, mine sites, airfields, waste stations and water storages.
